

## Energy City – Digital Game

[http://gated.jason.org/digital\\_library/cfy/8239.aspx](http://gated.jason.org/digital_library/cfy/8239.aspx) (do the tutorial first!)

Craft an urban energy portfolio that balances economic, social, and environmental issues...all while negotiating with stakeholders and generating enough power to support a growing population. Do you have what it takes to successfully lead a city toward a sustainable energy future?

**Attempt 1:** Name of City: \_\_\_\_\_ Years Completed \_\_\_\_\_ Normal or Expert (circle)

City Performance:

Global Environmental Health: \_\_\_\_\_ Local Air Quality: \_\_\_\_\_ Budget: \_\_\_\_\_

Negotiations:

	Offers Completed	Score

Total Score: \_\_\_\_\_

**Attempt 2:** Name of City: \_\_\_\_\_ Years Completed \_\_\_\_\_ Normal or Expert (circle)

City Performance:

Global Environmental Health: \_\_\_\_\_ Local Air Quality: \_\_\_\_\_ Budget: \_\_\_\_\_

Negotiations:

	Offers Completed	Score

Total Score: \_\_\_\_\_

**Attempt 3:** Name of City: \_\_\_\_\_ Years Completed \_\_\_\_\_ Normal or Expert (circle)

City Performance:

Global Environmental Health: \_\_\_\_\_ Local Air Quality: \_\_\_\_\_ Budget: \_\_\_\_\_

Negotiations:

	Offers Completed	Score

Total Score: \_\_\_\_\_

**Analysis:**

- Briefly describe the most important thing you learned from this simulation: \_\_\_\_\_
